RETURN POLICY

REQUEST RETURN (RMA)

Tripp Lite's Return Policy

Proof of Warranty Coverage

You must provide proof that the product is covered under warranty. This can be confirmed by the product's serial number or with proof of purchase in the form of an invoice or receipt from a Tripp Lite authorized dealer. If required, please include the proof of purchase invoice with your return. Warranties on Tripp Lite products begin on the date of your product purchase. Warranty coverage varies by product line. Specific warranty duration is outlined in the owner's manual that accompanies each unit.

Shipping Returns

You are responsible for all transportation, insurance, duties and other similar charges for returned products. Please use caution; shipping damages resulting from improper packaging will be your responsibility. We recommend using a reliable parcel or freight carrier who is capable of providing tracking information and proof of delivery. The proof of purchase, if required, and your RMA number must be inserted in the shipping carton before the carton is sealed.

Repair or Replacement

Tripp Lite will repair or replace the product at Tripp Lite's option and ship the repaired or replaced product back to you at no charge.

Products not accompanied by a valid RMA number will not be accepted. The RMA number must be enclosed with your product or be clearly visible on the outside of the packaging.

How can we improve the information on this page?

Is an important specification missing? Did you spot an error? Please **let us know (mailto:content_manager@tripplite.com?subject=Support page feedback for SK3-0)** how we can make this information more useful to you.

- Lecteurs DVD
- Magnétoscopes
- Chaînes stéréo
- Imprimantes
- Et autres

Du fabricant des parasurtenseurs isobar®

The SK3-0's advanced design and RFI/EMI line noise filtering stop damaging surges, spikes and line noise interference before they reach your equipment. Ideal protection for all electronics!

The policy of Tripp Lite is one of continuous improvement. Specifications are subject to change without notice.

La conception avancée et le filtrage du brouillage radioélectrique (RFI) et des perturbations électromagnétiques (EMI) de la ligne des SK3-0 éliminent les surtensions transitoires, les pointes et les bruits de ligne avant qu'ils atteignent votre équipement. Protection idéale pour tous les appareils électroniques!

La politique de Tripp Lite est en amélioration continue. Les spécifications sont sujettes à changement sans préavis.

Installation

Plug into a grounded 3-conductor 120V AC outlet. DO NOT connect more than 15 amps total load.

If the PROTECTED LED does not illuminate, contact Tripp Lite for support.

Lifetime Product Warranty.
See website for details.

Installation

Branchez l'appareil à une prise de 120 VCA à trois conducteurs mise à la masse. La consommation totale NE DOIT PAS excéder 15 ampères.

Si la DEL de PROTECTED ne s'allume pas, contactez Tripp Lite pour obtenir de l'aide.

Garantie à vie de l'appareil

Insurance Coverage

(This is a limited warranty valid in the U.S, Canada and Puerto Rico only.)

Tripp Lite warrants, for the lifetime of the product, (at Tripp Lite's option) to repair or replace (on a pro rata basis) directly connected equipment that is damaged due to power transients while properly connected to Tripp Lite products offering the Ultimate Lifetime Insurance Policy. Power transients include spikes and surges on the AC power, data or telephone lines that the Tripp Lite products have been design to protect against (as recognized by industry standards). The following four paragraphs are conditions that must be complied with before the warranty becomes valid; failure to comply with these requirements will void the warranty.

AC Power Line Transients: To claim damages, the Tripp Lite product must be plugged into a properly wired and grounded outlet. No extension cords or other electrical connections may be used. The installation must comply with all applicable electrical and safety codes set forth by the National Electrical Code (NEC). Except as provided above, this warranty does not cover any damage to properly connected electronic equipment resulting from a cause other than an "AC power transient". If user meets all of the above requirements, Tripp Lite will repair or replace (at Tripp Lite's option) equipment up to the specified value (See Ultimate Lifetime Insurance Policy Limits). No coverage is allowed for damage entering from telephone or data lines, unless they are separately protected, as described below.

Telephone and Data Line Transients: Tripp Lite will repair or replace directly connected equipment that is damaged by transients on telephone and/or data lines only when all such paths are protected by a Tripp Lite protection product(s) and the AC power (utility) line is simultaneously protected by a Tripp Lite power protection device (UPS, surge suppressor or line conditioner) with Ultimate Lifetime Insurance coverage. Additional telephone and/or data line connected devices downstream must have their own telephone and/or data line protectors.

Reimbursement dollar limits will be equal to that of the Tripp Lite power protection protector. Coverage is excluded where a suitable environment for the protection device is not provided, including, but not limited to, lack of a proper safety ground. Telephone service equipment must also include a properly installed and operating "primary protection" device at the telephone service entrance (such devices are normally added during telephone line installation).

All above warranties are null and void if the Tripp Lite product has been improperly installed, tampered with or altered in any way, or if the connected equipment was not used under normal operating conditions or in accordance with any labels or instructions. All claims under this warranty must be submitted in writing to Tripp Lite within 30 days of the occurrence or the claim will not be considered. This warranty does not include damage resulting from accident or misuse, and applies to the domestic (USA, Canada and Puerto Rico) use of these products only. Tripp Lite reserves the right to determine whether the damage to the connected equipment is due to malfunction of the Tripp Lite product by requesting the equipment in question be sent to Tripp Lite for examination. This policy is above and beyond, only to the extent needed, of that provided by any coverage of connected equipment provided by other sources, including, but not limited to, any manufacturer's warranty and/or any extended warranties.

EXCEPT AS PROVIDED ABOVE, TRIPP LITE MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Some states do not permit limitation or exclusion of implied warranties; therefore, the aforesaid limitation(s) or exclusion(s) may not apply to purchaser. EXCEPT AS PROVIDED ABOVE, IN NO EVENT WILL TRIPP LITE BE LIABLE FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OF THIS PRODUCT, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. Specifically, Tripp Lite is not liable for any costs, such as lost profits or revenue, loss of equipment, loss of use of equipment, loss of software, loss of data, costs of substitutes, claims by third parties or otherwise. Coverage also does not apply to connected medical and industrial equipment.

To receive service under this warranty, you must be the original purchaser/user of the product in question. You must obtain a Returned Material Authorization (RMA) number from Tripp Lite. Products must be returned to Tripp Lite with transportation charges prepaid and must be accompanied by a brief description of the problem encountered and proof of date and place of purchase.
