Introducing the Next Generation Cafitesse 300

For Peak Performance

- Great tasting coffee
- High capacity
- Eco mode

PEAK PERFORMANCE

The NG C300 is a high performance coffee machine designed to meet the requirements of the next decade. Excellent coffee is served with maximum convenience, hygiene, speed and capacity. Capacity can be adapted per location by switching the powerpack to either 1 phase or 3 phase.

Great tasting coffee
Cafitesse is 100% pure coffee brewed by Douwe Egberts' experts under optimal conditions.
You can choose from a wide range of blends, ranging from 100% Arabica to fully sustainable, from mild to dark roast.
To complete your offer also tea and decaf coffee are available.

Fast brewing time
- 1 cup = 3 seconds
- 4 x 1.5L thermos pots = 1½ minutes
- 87 litres per hour (3 phase dispenser)
- fill 2 thermos pots at the same time

High flow kit delivers coffee twice as fast by dosing from 2 packs at the same time

Simple operation
- Frontloading for easy refilling and cleaning
- Icon display guides operator through cleaning mode
- Needs cleaning once a week, no part removal required

Smart, modern functionality
- Eco mode = up to 30% lower standby energy consumption
- Preference display = brew coffee the way you like it
