

- Ensure USB Flash drive or SD card is inserted then Plug the included AC adapter (110- 240 V AC to 5V DC) Be sure not to use a different power adapter or the unit will be damaged
- Turn the Speaker **ON** to confirm Audio is playing
- Adjust the Volume to mid level (about 12 o'clock the volume rotates between 8 o'clock minimum to 4 o'clock maximum do not turn it past these levels)

Package Content:

iHOLD P device
Power adapter 110/240v AC to 5v DC 1500 ma
USB flash Drive or SD card
RCA to RCA audio Cord
User's Manual

please note some music titles are not royalty-free and you may want to use the royalty-free music titles to avoid annual licensing payments to ASCAP and BMI for playing those titles on-hold

LED : The front LEDs turn ON solid to indicate playback.

You may turn the speaker OFF (middle position) at any time after you confirm device is playing

Connecting to a Computer :

Remove the USB drive or SD card and insert it into USB port or the SD slot normally found on most PC/ laptops, This will be detected as "Removable Disk", when you open "My Computer" or "Windows Explorer"

Transferring files into USB drive:

Select the file you want to transfer and drag-and-drop it into the "Removable Disk" that represents this device (right click on the file, copy, move the mouse to the "Removable Disk", right click there and paste)

Please Note: **The iHold plays all .mp3 files on the USB stick one by one before it auto repeats from the 1st file**, some of these files may be in Holiday format you may silence the files you do not want by renaming them to "filename.ip3" or **just move or delete the extra files you do not want to play from the USB drive/SD card**. After the file is transferred allow 15 seconds for it to finish before removing the USB drive / SD card.

You must **use a PC not a MAC or Apple PC** to do the file changes otherwise the device keeps playing its original files (this is because the USB stick was created on a windows based PC)

Be sure to read the README.txt file on the USB flash drive or SD card for more info on file changes and for software utilities.

Disconnecting from Computer:

⇒ Double click on the green arrow in the Task-bar located on the lower -right side of the computer screen (Safely Remove Hardware)

⇒ Select “USB Mass Storage Device” from the list that appears then click “Stop” then press “OK”

⇒ When the “Safe to Remove Hardware” appears click OK and remove the USB Flash drive or the SD card.

Audio OUTPUT:

The iHold has a RCA connector or a 3.5mm (1/8 inch) connector for Automatic 8 Ω, 600 Ω Output connection to a PBX / KSU telephone system “MOH” jack. When connecting if you get any noticeable “Hum” in the on-hold audio you may need to add a “isolator noise filter” or “Ground Loop Isolator” between the connector and the cord or use a “isolated audio cord “ (contact tech support or search online for more info)

Modes of playback: 1 to 99 tracks, device plays all the tracks one by one and re-loops automatically, silence any track by renaming it to filename.**ip3** instead of filename.mp3 or just delete it.

Single track

Multi track -----

USB drive / SD CARD:

iHold can accept 128MB to 8GB USB drive or SD cards available on the market, up to 256 hours of continuously playing audio time can be obtained using 4GB. To remove the USB drive / SD card, remove power 1st, update it from your PC/Laptop (for **Apple** or **Mac** PCs you may need to save all files to your Mac, format the USB/SD card then paste the files back) then insert it back; Re-power the iHold and the playback automatically resumes in a few seconds.

Volume:

Turn Volume Clockwise for **Volume UP** (maximum 4 o'clock), Turn it counter clock-wise to turn **Volume DOWN** (minimum 8 o'clock)

SPEAKER:

Flip switch to ON position to hear audio from a speaker inside. This is only for monitoring or testing the audio, the volume levels heard at this time are not the actual audio volume levels available to the MOH port for On Hold, be sure to re-adjust the volume again after Speaker is turned OFF to ensure the proper and desired audio volume levels.

Warranty

This product is warranted against defects for a period of one (1) year from the date of original invoice. We will repair/replace the product with no charge for parts or labor within this time. To obtain warranty service the product needs to be returned freight prepaid by the customer with a copy of original invoice. This warranty does not apply if in the sole opinion of Innovative Telecommunication Technology LLC, the product has been tampered with or damaged by lightning or any other acts of nature, misuse, neglect or unauthorized service.

EXCEPT AS SPECIFICALLY PROVIDED IN THIS AGREEMENT, THERE ARE NO OTHER WARRANTIES, EXPRESSED OR OTHERWISE, INCLUDING, BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OR MERCHANTABILITY OR FITNESS FOR A SPECIAL PURPOSE. IN NO EVENT SHALL INNOVATIVE TELECOMMUNICATION TECHNOLOGY LLC BE LIABLE FOR LOSS OF PROFITS OR BENEFITS, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHERWISE ARISING FROM ANY BREACH OF THIS WARRANTY OR OTHERWISE.
